**Subject:** Welfare for Netscape?

Dear Sir:

Why your company should be penalized for being successful is a distortion of our American dream. You have done nothing wrong except failing to give huge sums of money to the Democratic Party, as Netscape and other of their ilk did.

This entire matter should be halted now, and abject apologies paid to all the Microsoft crew who have had to endure this insult to their abilities to make a better "mousetrap".

Audrey Swearengen
